

AIS AQUATIC AND FITNESS CENTRE – POOL CLOSURES

Due to extensive refurbishment works scheduled within the AIS Aquatic and Fitness Centre, we wish to advise of closures to the following pools over the indicated periods:

25 Metre Pool	December 4th, 2017 – January 31st, 2018 (inclusive)
50 Metre Pool	December 4th, 2017 – February 28th, 2018 (inclusive)

The 25m pool will re-open on Thursday 1 February 2018, and the 50m pool will re-open on Thursday 1 March 2018.

The closures will allow for re-tiling of pool deck and concourses to take place as the current tiles are reaching their useful life span.

Swim School will operate over eight weeks in Term 4 and all customers will be notified by the Swim School staff.

Swim Intensive program will not operate over the January School Holiday period.

Club Aquatics are currently working through a revised schedule, and the Swim School staff will confirm directly with those affected.

The Fitness Centre will continue to operate as per normal, however AquaFit classes will be affected. Staff are currently looking at options to provide some Deep Water classes during this period. Further details will be communicated directly to Fitness members.

Holiday Programs will continue to operate as per normal – with the exception of swimming which will not be able to be offered on Monday, Wednesday and Fridays for January 2018 programs. This should not have any impact on the Holiday Program as we will still offer a wide range of exciting and fun activities.

Recovery Program will operate to a modified dry land timetable. More details will be communicated to Recovery members.

Reception will operate as per normal during the period, however operating hours may be reduced at times to mirror Fitness Centre opening times. All changes will be communicated via notices and / or www.experienceais.com.

For all enquiries before and during the closure periods, please contact Reception on 6214 1281 or 6214 1050.

We appreciate your patience and understanding during this period as we continue to improve our facilities in order to continue providing you with a high quality and safe experience.
